

**REMARKS**

In accordance with the foregoing, claims 20-24 have been cancelled without prejudice or disclaimer. Claims 1-19 are pending and under consideration.

**Claims 1-19**

On page 4, the Office Action indicates that claims 1-19 are in condition for allowance.

**Rejection of Claims 20-24 Under 35 U.S.C. §103(a)**

The Office Action rejects claims 20-24 under 35 U.S.C. §103(a) as being unpatentable over English Translation of Jung (KR 1999-003365 in view of U.S. Patent 2001/0010579 issued to Nishi. Claims 20-24 are cancelled without prejudice or disclaimer.

Accordingly, withdrawal of this rejection is respectfully requested.

**Information Disclosure Statement Filed May 16, 2005**

An information Disclosure Statement was filed on May 16, 2005, which included an English translation of an Office Action issued by the Korean Patent Office on February 16, 2006. On page 2 of the Office Action mailed January 13, 2006, the Office Action indicates that the documents provided in the Information Disclosure Statement were considered to the extent that they could be understood from any English translations and drawings.

However, an Attachment 1(g) listing the English Translation of the Korean Office Action accompanied the January 13, 2006 Office Action. Although this Attachment 1(g) was signed and dated by the Examiner, the Examiner crossed out the English Translation of the Korean Office Action. Accordingly, it appears that the Examiner considered the English Translation of the Korean Office Action, but the Examiner crossed out the English Translation of the Office Action so that it would not appear on the face of an issued patent. Accordingly, Applicants respectfully request that the Examiner confirm in the next communication from the U.S. Patent and Trademark Office that the Examiner has considered the English Translation of the Office Action.

**Summary**

Claims 1-19 are pending and under consideration. It is respectfully submitted that none of the references taken alone or in combination disclose the present claimed invention.

There being no further outstanding objections or rejections, it is submitted that the application is in condition for allowance. An early action to that effect is courteously solicited.
